ABOUT US

Techchef e-waste solutions take the oath with you to dispose of e-waste sustainably with its e-waste recycling solutions.

At Techchef E-waste solutions, we take the pledge to make mother earth more clean and green by reducing and managing the electrical and electronic waste in an eco-friendly way.

Techchef E-waste solutions is approved by Delhi State Pollution Control Board, established by tech professionals and CEOs, Mr. Rakesh Kumar, Mr. Anish Kumar, and Mr. Chandan Chaudhary.

Our Vision

Our company's core Vision is to deliver safe, efficient, and sustainable e-waste disposal collected by our channels for the e-waste recycling with our on-site and off-site services to meet the ends of environment protection and customer needs.

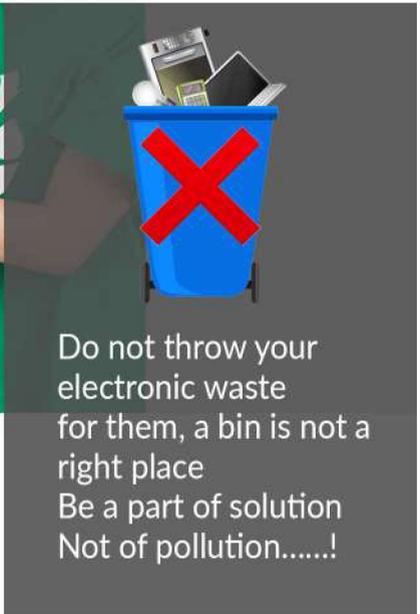

*Say No to E-waste
Follow 3 R's
Reuse, Reduce, Recycle*

- A** **Reuse** - Reuse your electrical waste in sustainable manner with e-waste recycling.
- B** **Reduce** - Reduce e-waste pollution by knowing the concept of e-waste management
- C** **Recycle** - Recycle your e-waste to make better environment for better future.

OUR SERVICES

Techchef e-waste solutions spreads awareness to people by offering various electronic waste services to see a better tomorrow.

Do not throw your electronic waste for them, a bin is not a right place
Be a part of solution
Not of pollution.....!

01

E-waste recycling

Our aim is to provide a simple, straightforward, transparent and sustainable way to recycle and manage your E-waste and Electronic assets. We collect all types of IT, electronics, electrical, media and communications equipment.

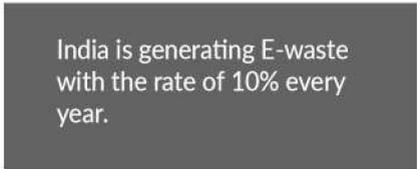

02

Data sanitization

We offer world-class solutions for data erasure, data degaussing, and data destruction and provide certification on each service as proof of safe data security to compliance with corporate mandates.

10%

India is generating E-waste with the rate of 10% every year.

WORKING PROCESS

We at techchef e-waste solutions facilitate e-waste management by availing e-waste recycling services to keep the earth clean and hazardous-free.

OPERATION PLAN

We expertise in E-waste management and data sanitization services to provide the world with economic, environmental, and social benefits.

E-waste Recycling

We eliminate hazardous waste with our secure e-waste recycling service. The e-waste go through certain stages before recycling.

● E-waste Collection

We collect e-wastes from homes, offices, and industries to initiate the e-waste process further at our centers.

● E-waste Segregation

Segregation is a vital part of e-waste recycling, where various components of e-waste are segregated manually into various unit categories.

● E-waste Dismantling

We have dedicated professionals who work in e-waste dismantling to separate the components of e-waste and examine the details deeply to reuse or resale materials.

Data Sanitization

Not only e-waste management, but we are specialized in data security with our expert data sanitization services to protect you from security implications.

● Data Erasure

We are Asia-Pacific certified partner with Blancco erasure solutions to promise you the most secure data erasure service with certification.

● Data Destruction

We destroy data with our high-quality data destructor Garner for safe data disposal and protect you from various security threats.

● Data Degaussing

By destroying the magnetic property of the device, your data is safely disposed of.

CREATIVE TEAM

Techchef E-waste solutions is led by three serial entrepreneurs Mr. Rakesh Kumar, Mr. Anish Kumar, and Mr. Chandan Chaudhary. We are an Indian government-approved organization that aims to preserve earth land's greenery with our world class electrical waste solutions.
